

Hi Ross

I am one of two Greens candidates running in the North East Ward of Moreland City council.

While not a bicyclist myself I am fully supportive of:

1. encouraging greater usage of bicycling for work, pleasure and helping improve our communal carbon foot print.
2. local government - in particular - Moreland City Council continuing to give a good priority to providing safe and more user friendly bike paths throughout the city of Moreland.

I hope this is sufficient for your purposes.

best wishes

Robert Humphreys
