What is your perception of bicycle safety in Moreland? *

- About right
- Not very safe
- Very unsafe
- Other:

Road safety, environmental sustainability, greenhouse emissions and public health & obesity are important public policy issues which are influenced by decisions you will make if you are elected. Do you see bicycle riding helping to solve any of these problems? *

- Unrelated
- Some
- Significant part of the solution

Do you think that the best solution to road traffic congestion is: *

The Moreland Bicycle Strategy

(<http://www.moreland.vic.gov.au/globalassets/key-docs/policy-strategy-plan/bicycle-strategy-2011-21.pdf>) states that "To deliver these projects Council will need to increase funding commitments beyond historic levels [\$5 per resident] and commit to increasing bicycle expenditure in response to growth in cyclist numbers, population and inflation." In your view is \$5 per resident: *

- Too much
- About right
- Not enough

- Other: Not enough if the City of Moreland are to deliver on its Bicycle Strategy. Rate-Capping should not be used as a cheap excuse to either cut services or fail to deliver on existing commitments.

What is the role of Council and Councillor decisions in promoting cycling in Moreland? *

- None/there are other priorities to focus on
- Minimal - happy to lend passive support for projects funded by others
- Moderate
- Major - cycling is a local issue with significant local benefits
- Other:

Where do you see the role of cycling in Moreland in four years and what would your contribution to that be? Don't forget to press "SUBMIT" when you have finished. Thanks for you participation! *

The contribution that I would make would be "bicycle positive" and include solar-powered, night lighting on all bike paths, bike lockers at each train station, expand 'Copenhagen' bike lanes where appropriate, increase safe interchanges between bike paths and other forms of public transport and introduce "Le Tour de Coburg" and/or the "Festival of the Bike"
