

Moreland Bicycle User Group (Moreland BUG) is a non-profit organisation run by volunteers advocating for safer riding in Moreland. Each Council election we survey candidates on their commitment to issues affecting people as they get around by bike so that our members and the wider community can make an informed decision at election time.

Candidate Name: Lambros Tapinos

Candidate Affiliation: Labor

7% of Morelanders use their bicycles get to work. (MITS 2019) Others ride to school, the shops and other local destinations. What is your perception of safety for these people in Moreland?

Cycling safety needs to be improved. It involves education campaigns to drivers to be more aware of cyclists. It also involves better infrastructure repairing bike lanes.

Road safety, community building, accessibility to transport choices, environmental and public health are public policy issues influenced by decisions Councillors make. What role do you see bicycle use having in these?

- Unrelated
- Some
- Significant part of the solution
- Other

Which of these current projects/issues impact Moreland resident's transport choices?
(select as many as you believe apply)

- Cumberland Road Separated bike path (retaining parking)
- Glenlyon Road Bunnings Development
- Upfield Shared Path extension to Upfield
- Craigieburn express Shared Use path
- Separated bike lanes on Sydney Road
- Covid-19 Pop up Lanes
- Other

What in your opinion, is the best solution to traffic congestion in an electorate like Moreland?

- Build more roads
- Make it easier for people to access transport options such as public transport and riding and walking.
- Other

What is the most appropriate traffic speed for our local streets to ensure safety for all users?

- 30kph
- 40kph
- 50kph
- 60kph
- Other

If you selected 'Other' above please elaborate here:

Combination of 30kph and 40kph

The Moreland Integrated transport Strategy (2019) seeks to "Facilitate a demonstrable mode shift to more sustainable modes of transport that also targets a long-term reduction in car use." Do you support this aim?

- 100% yes
- Yes, with reservations
- No

If 'No' or 'With reservations', please elaborate here:

Yes, I support the aim. Need to encourage people who can mode shift to do so, but acknowledge some people still need to drive cars. The MITS strategy should have more advocacy and support for public transport. But I don't support making it difficult for people to park and drive in order to achieve mode shift because some people don't have options and need to drive.

What is the role of Council and Councillor decisions in promoting cycling in Moreland?

- None. There are more important issues
- Minimal - happy to lend passive support for projects funded by others
- Moderate
- Major – cycling is a local issue with significant local benefits
- Other

What are your aspirations for people who want to ride in Moreland over the next four years and what will your contribution to that be?

More cycling paths, complete the strategy and the network.
